

GREEN INFO SHEET

All products manufactured by Caco, Inc. are made in the U.S.A. Caco, Inc. promotes recycling and the use of recycled materials in all areas of our manufacturing process. This includes:

- *recycled steel and aluminum in all products*
- *recycled vendor packaging in all facilities*
- *Made in the U.S.A.*

Green Properties

- Aluminum blinds help reduce energy consumption and lower energy costs by insulating your windows. In the summ they prevent solar heat gain and reduce heat loss throughout the winter.
- Aluminum blinds help prevent damage to furniture, interior finishes and fabrics by blocking harmful UV rays. Aluminum blinds help prolong the life span of your furnishings, thus keeping them out of landfills.
- All Caco aluminum blinds are backed by a lifetime warranty and are engineered to stand the test of time. Keeping out of landfills.

Eco-Friendly Raw Materials

- The head rail and all componentry is 100% recyclable.
- Slats are composed of aluminum alloy with a recycled material content of 41.53% (a letter of compliance is on file for LEED qualifying projects).
- Corrugated 44 ECT cardboard packaging consists of 100% recycled material that is also 100% recyclable (a letter of compliance is on file for LEED qualifying projects).
